I can, but I'm unclear why this isn't resolved remotely if everything is documented. If you prefer I show up in person, I will — but I expect it to be the last time.

No need for me to be a prick anymore I guess. I know you've been served. Both officially and unofficially. Note how I left everything else open to discussion. Have we figured out what happened here yet?

Pps: at the very beginning of this. Nicehash.com, before I had looked into anything, had the offer .01% of the money(yes, the pretend kind), that I found out LATER, was stolen. At that point, everything was already done. This all wouldn't have been a blip on ANYONE'S RADAR. All they fucking had to do was be honest. I was the victim first, and ever since. Me? I'll hold myself accountable for this, don't you worry. I got my back.

Your documentation should have touched down by now. If you dont have it by this afternoon, guaranteed by the following morning. It's the only beneficial window remaining to talk at this point. I know it. You know it. Enjoy whatever lukewarm oat-based carbon-neutral microfoam they siphon through a paper straw from a \$9 biodegradable cup stamped with a QR code that donates 3% to feelings, gentlethems. Here's another picture of my baby chickens. If these sting to look at. Good. They do for a reason, it's called a feeling. And feelings are owned entirely by the beholder. And it's probably further confirming exactly what you've already been feeling. And you already know why....pleeeeeeeease can we get his over with?? Pouty 🥺

Addendum key: ** = all you had to do was be honest.

P.s. you guys are becoming too large of a part of the story that I can just mix it in somehow without context or leave it out now.** And I locked down my IP with the extra time you gave me. Thanks for the heads up.** so it can only be revealed on your platform now.** I sealed you(and whoever did, what they did the night of the 30th. Who is now identifiable as the leaker, unless proven otherwise) in the chamber that you thought you were building for me.** Also, if it wasn't for your fuckery**, @Lukedashjr would have known what was going on and kept his mouth shut(he was actually the only genuine person in the conversation. He just didn't know...) But since I was shoved into a "ghost post" no one could see in. That I paid 2-100 dollar payments for, that became 3 somehow?** One for 25.16, one for 196.27, and one from 11 days ago.** Still pending.** Luke was completely oblivious.** That will have to be part of the case now(psst. It already is...)That's on me, I guess.** What I'm telling you is, let me be clear**..... YOU. ARE. ACTIVELY. WITHHOLDING. DOCUMENTATION. AND. EVIDENCE. OF. MY. ACTIVE. SEC. CASE. INVESTIGATION. FROM. ME. WITH. ZERO. EXPLANATION. I have copies. But you're breaking so many laws. And I can't figure out why when ,**. It's obvious I didn't come

here looking to disrupt your platform. You're in my way. You will move. And if I don't hear something before you receive the physical documents. I will drag you as far in with this other evil arm I found as I possibly fucking can. You didn't even have my attention until you interfered. Over 2 weeks have gone by. Exactly, as of 2am(EST) on the 10th of June, you now will get my full, undivided attention. Let the record show, I don't want this. But you're leaving me no choice. If Elon doesn't know. You already know this has gone far outside of your control. It's time he knows. Why am I the only one trying to protect this man? I've been more protective of your own boss than you're being right now. I found rot...and I can't leave it there. Whether you'll ever admit it or not, I'm just trying to "keep things honest." I'm just an enigma guys, that's all, and you're pressurizing me....I don't break, bois. Not for this. Nope. Never. I'm part your world until I choose to leave on my own, now. Why does everyone keep doing this to themselves? 😂⚡😂😂🐱😂⚡😂

Did I mention my profile page/comments are all evidence already in the SEC case? And you're actively withholding my own information. Tell him now. You can still be the good guy. I don't owe you this.

Somebody better go get the boss. Seriously, please. I'm sure he'll understand. You guys had a misunderstanding low-level. It happens. I didn't mean to paralyze you guys. I was just being careful. But somebody is going to have to act like a grown up. I only officially have filed for disclosure at this point. Because I thought somebody there would have enough wisdom to see that I wasn't looking for an issue. In fact, I paid you to help. Which is disheartening. But at least I'm man enough to talk about it still. You will talk about it. The disclosure paperwork will be there in the morning or the next day. There's no need to make me go after you guys for everything. Until further notice. I just need you to GET THE FUCK OUT OF MY WAY, please. I have real business to handle that I need my information from on my page. That's where most of my evidence was verified. And I need it. Now. For the last time. Please. Pretty please. Let's figure this out. If Elon doesn't know. You still have a couple hours. I'd tell him now. Before everything else, just becomes a surprise to him.

Thank you,

Zack

If you wish to respond informally or off the record to clarify your position or distance yourself from those involved, you may do so without it being treated as a formal admission of liability. This communication channel is being offered as a courtesy window for de-escalation, should you choose to engage in good faith. Silence, however, will be documented accordingly.

I must have absolutely been too nice at the beginning. I don't understand how this has already turned to 2 full weeks of suppression. After I have provided every single shred of evidence anyone needed to confirm anything, 2 weeks ago. If you're having an internal issue, fine. We'll get to that later. But I need you guys to start making this right. Immediately. This will be my absolutely final show of good faith. If I don't get a response, at least, by the end of the work day. I will be following up tomorrow on the other 21 charges. I dont know if this is the first you're hearing about it. I don't care. Your system, your problem. You're legal for them, I'm your problem. I never wanted the beginning of this saga. Let alone have to fight everybody every step of the way. I need an answer today. Last show of good faith.

I look forward to hearing from you,

Zack
